

iZone[®] 325
climate control system
makes the numbers
work harder.

For precision control of your ducted air conditioning.

iZone[®] 325 puts you in control.

Airstream's new generation iZone[®] 325 climate control system works with Panasonic, Daikin, Toshiba, LG, Temperzone, Mitsubishi Electric, Fujitsu, Samsung and Hitachi air conditioning brands and offers complete control over your ducted air conditioning system.

iZone's intuitive touch screen interface is elegant, easy-to-use and exceptionally efficient.

MAKES THE NUMBERS WORK HARDER

Precision engineering, BMW-style.

iZone® 325 uses the same CAN Bus protocols that Mercedes and BMW use. So it's as responsive as it is intuitive, and with a measured warranty rate of less than 1%, it's dependable too.

That's why major Japanese brands have asked Airstream to develop control systems for their next generation air conditioning units.

iZone[®] makes the numbers work harder, so you don't have to.

iZone's touch screen technology gives you total temperature control of each room individually. Adjust the air distribution, temperature or airflow to any room.

Select up to 12 touch screen consoles or sensors – every room will be at the temperature you want, all the time. You can also direct airflow to only the rooms you choose for maximum efficiency and savings.

For even more control, ask about the Airstream iSense controller, which maximises efficiency by detecting which rooms are unoccupied, to provide cooling and heating only when and where you need it.

iZone® works with Airstream®.

iZone® was created by Airstream®, the industry-leader in fully integrated air distribution systems. Airstream® products work seamlessly together to maximise the efficiency of your home's ducted air conditioning. iZone® can be retrofitted to work with your existing ducted air conditioning too.

MAKES THE NUMBERS WORK HARDER

iZone[®] functionality makes life easy for you.

iZone[®] App

The WiFi and 4G enabled iZone[®] App enables you to control your air conditioning system via your smart phone or tablet. The iZone[®] Worldwide service allows you greater control, giving you 4G access from anywhere, for even more efficiency and savings. Now the whole family can come home to the perfect temperature.

MAKES THE NUMBERS WORK HARDER

Easy on the eye – and your pocket

iZone® 325 offers a choice of elegant control consoles or sensors that you can customise to suit your home's interior design. Changing the background colours or facias on your controllers is as straightforward as choosing the precise temperature you want.

iSense room temperature control for optimal efficiency

This clever zone controller detects if a room is unoccupied. iSense will then automatically adjust the room temperature or switch off the air conditioning to that room. iSense significantly improves energy efficiency and reduces the running cost of ducted air conditioning system's in homes and offices, directing the airflow only to the rooms you are using.

Nature's air conditioning at the touch of a button

Airstream® has developed an innovative way to make the numbers work even harder. Our patented iSave® technology uses cool outside air to lower the temperature of your home without the need for refrigerated air conditioning, to save you money.

Home automation integration

iZone® 325 uses the latest technology, so you can integrate your air conditioning with your home automation system, to make it even easier to control the temperature of every room in your home.

Set and forget

Create up to 9 'favourite' zone scenarios to suit your lifestyle, then schedule these 'favourites' to match everyday living. But for a quick set and forget 'system off' timer, just press the seven-setting sleep timer button and iZone® takes care of the rest.

The iZone[®] 325 is smarter too.

Features	iZone® 325
Intuitive user navigation	✓
Customisable touch screen background colours	✓
Upgradeable saturn facias	✓
Number of zones available	14*
Maximum number of screens	12
Airflow adjustment	5% increments
Zone temperature control	✓
Wireless temperature sensor option for existing homes in 3 saturn colours	✓
Temperature sensor calibration	✓
Optional iSave®>	✓
Favourites mode	✓
Filter clean alert with adjustable frequency	✓
7 day scheduling	✓
Sleep timer	✓
Warranty	10 years*
Air conditioning unit control	Full Daikin, Panasonic, Toshiba, Mitsubishi Electric, Temperzone, LG, Fujitsu, Hitachi, Samsung
Zone temperature sensing options	Touchscreens iSense controllers Zone sensors
Options for A/C unit control**	Return air Master zone Auto select from temperature controlled zones
Modes	Cool, heat, vent, dry, auto
Fan speed	Low, medium, high, auto
AC unit auto off feature	✓
Damper control	Tuned PID
Protocol	CAN Bus
Remote control	Smart phone and tablet WiFi and 4G, PC App
Home automation system integration	✓
iLight lighting control integration	✓

> With iSave® fitted to an iZone® 325 system, the maximum number of zones is reduced to 12. **Master and auto select are not available on LG systems.

* Standard warranty 2 years plus 8 year extension (conditions apply. See izone.com.au for details).

Complete confidence and a full 10-year warranty.*

As an Australian company, we understand Australia's unique climate. And as a locally owned and operated business, we're here for you if you need us.

What's more, because quality is our priority, we're able to offer a full 10-year warranty*. This covers every element of our air distribution systems, including your iZone® 325** control system.

10-YEAR
WARRANTY

*Standard warranty 2 years plus 8 year extension (conditions apply. See izone.com.au for details).
**iLight control system 2 years parts only.
